0383/MIT9015
Title: TISSUE ENGINEERING ENHANCED BY THE TRANSFER OF A
GROWTH FACTOR GENE

Assistant Commissioner for Patents
Washington, DC 20231

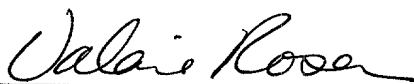

Sir:

PETITION TO INCLUDE COLOR FIGURES UNDER 37 C.F.R. 1.84(a)(2)

Applicant requests that color figures be accepted with this application. The color figures are micrographs of stained sections of engineered tissue. The stains cause the tissue to adopt a specific color indicating extracellular matrix components and other materials that may be present in the tissue. Without color, one could not adequately convey to one skilled in the art the histological effects of the various techniques disclosed in the application, including the techniques of the invention and various experimental controls. Three copies of the color figures are included. The specification of the application contains the statement required by 37 C.F.R. §1.84(a)(2)(iii).

Please charge the \$130.00 petition fee and any additional fees associated with this filing, or apply any credits, to our Deposit Account No. 03-1721.

Respectfully submitted,

Valarie B. Rosen, Ph.D.
